**We Can Help You Get Started ... Or Grow.**

FacultyLinc, the brand new web site just for the college professor is now up and running. We are working hard to make it a handy resource for all your ministry needs. One of the questions we hear most often is: "How do you get a faculty ministry started on a local campus?"

Welcome to the Faculty Office creation and editing page. Virtual Faculty Offices have been very effectively used by faculty members to inform their students and colleagues about their Christian faith.

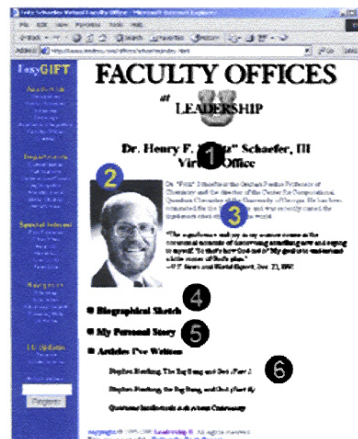

There are 6 simple steps to creating your Faculty Office. If you are creating a new Faculty Office, this page will initially allow you to complete steps 1 - 3. After saving this partial office, you will be returned to your Faculty Office Homepage. Click the button **Edit Your Faculty Office** to edit your office and complete steps 4, 5 and 6.

If you are editing your existing office, your current information is displayed for editing.

You are seeing this screen and the editing buttons because you are authenticated with your username and password. This allows you to create and edit your faculty office. All text shown in this **green** color is only visible when you are logged in as an authenticated user. Normal users will never see text in this color. This will help you understand which information a user can see and which he/she cannot see.

Non-authenticated users do not see the editing buttons or the green text.

You can get help at any time by pressing the help icon .
